Introduction

The Bookshop & E-learning is a web-based application where you can buy or sell used and new books. You can search for books you want to buy on this website. You can see the description of the books and also post a review regarding those books. Moreover, you can also sell used books and set customized book values. The buyer can pay the bill by cash on delivery. You can give feedback or comment about books which will help others to make decision easily.
